

Paper Carton Tethered Closure

A More Sustainable End-of-Life Solution for Beverages, Soups and More

EU Directive 2019/904 on single-use plastics requires beverage bottles to have closures tethered directly to the bottle for optimal disposal, reducing the risk of plastic items going into the environment. This EU legislation has set a precedent for how other countries tackle single-use plastics, forcing every global brand to rethink their packaging formats for enhanced sustainability.

Jabil's carton compatible closure is tethered to help brands quickly meet their recyclability goals. This tamper-evident tethered closure features a cutter ring to puncture foil lids while its opening force, torque and tether strength all adhere to current Cetie standards.

MARKET APPLICATIONS

- Dairy
- Plant-based Milks
- RTD Tea & Coffee
- Juices & Nectars
- Soups & Stocks

PRODUCT BENEFITS

- Optimized for Recyclability
- Material Flexibility
- No Capping Line Changes
- Optimal Performance

PRODUCT FEATURES

- Stay Back Tether
- External Tamper Evidence
- Cutting Ring
- Lightweight
- Audible Click Tamper Evidence

CUSTOM DEVELOPMENT

Have a custom closure that needs to be tethered?

Leverage our design, tooling and manufacturing services to deliver a more sustainable packaging format.

ABOUT JABIL PACKAGING SOLUTIONS

Jabil Packaging Solutions, headquartered in St. Petersburg, Florida, enables food and beverage, home, personal and professional brands to create differentiated products in areas including intelligent, active, rigid and sustainable packaging, as well as consumer devices. Purposeful innovation, advanced conversion capabilities and best-in-class manufacturing practices are just some of the drivers that enable us to co-develop game-changing rigid packaging for our customers.
